

DUODEX ENGINEERING & TRADING SDN. BHD. (332685-X)

● Fire protection specialist contractor & engineer ● Fire roller shutter & industrial doors specialist ● Fire rated partition & interior plaster supplier

Collapsible Gate

Collapsible gate provides extra protection as the shop is visible from outside. Advertising can be done even if the shop is closed. These doors can be an added security feature where there is existing shutter or glass doors available. The doors close vertically and this would not obstruct the opening during hours taking up only 15% of the opening in the open position.

The Collapsible gate are used due to its superior operating capabilities. Simple doors can reach to sizes of 6 metres in width and 4 metres in height. If in pairs the door can be 12 metres in width and 4 metres in height. These collapsible gate has a channel installed at the top side of the link or beam. At the bottom there is a U channel installed in the floor. All the collapsible gates are sprayed galvanised or silver in colour.
